The Tri-Weekly Freeman

From the Louisville Democrat

The Messenger from the Moon.
Two single-lined lines of light,
Swung from the rim of gold,
Long yellow lines and bars of white
Which burning stars uphold—

Leaned on the edge of the silver barge,
That sat at half a ship,
As if its weight bore heavily
On the sky's light laden ship.

A ladder it was from earth to moon,
With shadowy lines and bars,
And every line was clasped and rung
And riveted with stars.

Such a ladder it was as appeared
To Jacob in his dream,
When the light flowed down thro' the gates of
heaven

In a liquid, golden stream.
And then I knew why the time of the year—
The lover's month of June—
A stranger messenger might appear
With papers from the moon.

And I thought a sign, a hope that might
Bring Clote to my arms;
For Love, the sweet, fond doubter, still
Lives only in alarms.

He bade me watch on a certain night—
A calm, delicious eve—
When the hush of the fall comes soft and light,
And the sign I would receive.

I watched, and the moon went winging up,
While down in its moonlight
The twinkling light from the silver cup
Stained every ripple's rim.

This sign fell down from the hollow sky
And the blue-star'd architect
A hoop of gold from a half clasped moon,
But broken upon the wave.

Why pause like one who reads a song,
Where a maze of plots run through,
To find on the letter'd, living page,
The lost, escaping clue.

Ah, no! I'll let the messenger slide
To anywhere—say to Mars—
With his sky-blue pants, and velvet vest
All buttoned up with stars.

WILL WALLACE HARNEY.

ARRIVAL OF THE ATLANTIC.

HALFAC, March 16.
The steamer *Arabella* has arrived with Liverpool dates to the 14th, being one week later.
The Pacific arrived out on the morning of the 2d.

Vienna, 22.—The movement of the troops toward the frontier continued.
Arrives have reached Brussels that the Russian fleets are preparing to leave Constantinople, probably to gain the sea before the arrival of the combined fleets.

Negotiations between Russia and Sweden have not yet terminated, and fears are entertained at Stockholm that Russia, in order to give weight to her demands, will make a demonstration with its fleet against the Capital.

The Russian envoy had a private audience with the King of Sweden on the 21st February.
France, England, and Russia continue to manufacture armaments on an immense scale.

Sir Charles Napier has been appointed to command the Baltic allied fleets.
Admiral Seymour, in command of 20 ships, is already assembled at Sydney.

The Russians are making preparations to cross the Danube, and Omar Pasha was making preparations to check them.
The Turks no longer occupy any town except Kalafat north of the Danube.

There has been considerable fighting in small parties whenever they came in contact, but nothing important.
Another convoy of 16,000 men are preparing to leave Constantinople for Baku.

Several British ships-of-war have been ordered from Malta to the Bosphorus to look after the Greek insurrection. The insurrectionists have been defeated by the Turks at Arta.

The Turkish Government, in concert with England, France, and Russia, had addressed a remonstrance to the Greek Court; the latter acknowledged and disowned the Minister of Police.

In Great Britain war was quite popular, and additional estimate to the army and navy are considered moderate.
France—Napoleon opened a legislative session on the 21st. He commenced his speech by referring to the deficient harvest, and that but 7,000,000 wheat have been imported, and more is on the way. Famine has been avoided, but war was beginning, and France has gone to war, as honor no longer permitted her to avoid a collision, but she must now draw her sword. She has no views of aggression; the days of conquest are past, never to return.

Europe was assured by the moderation of the Emperor Alexander and his successor Nicholas, and seemed to doubt the danger which threatened it from the colossal power, which, by successive successes, embraced the north and the centre of Europe, and which possessed almost exclusively two internal seas from whence it is easy for her to launch forth her fleets and armies against civilization.

The St. Petersburg journals give the following as the Czar's answer to Louis Napoleon's letter.
If his Imperial Majesty extends his hands to me as I extend mine to him, I am ready to forget the mortifications I have experienced, harsh though they be, but the only can I discuss the subjects treated of in his letter, and may perhaps arrive at an understanding. Let the French fleet prevent the Turks from transporting reinforcements to the theatre of war, and let them send me a plenipotentiary to negotiate, whom I will receive as a friend, and not as an enemy. The conditions made known to the Czar by the Czarina are the sole basis upon which I will treat.

ARRIVAL OF THE FRANKLIN.

New York, March 16.
The Franklin has arrived from Havre with dates to the 24th.
The ice in the Baltic has broken up, and the Russian fleet at Constantinople is ready to sail.

It is rumored that the Czar has laid embargo on British shipping in Russian ports.
The Russians are making preparations to cross the Danube.

There is nothing new from Asia.
British ships have been ordered to Tientsin to suppress the Greek insurrection.

Austria threatens the occupation of Bosnia and Servia.
There was a panic at the Vienna Bourse in consequence of the Czar's reply to the Napoleon letter, which has been published.

He says, in conclusion, that the conditions made known to the conference of Vienna are the sole basis upon which he will consent to treat.
Austria has finally decided, in conjunction with the Western Powers, to summon Russia to evacuate the principalities by the 30th of April, and, if necessary, to use force to compel it.

New York, March 16.

Orders have been received at Norfolk to fit out immediately the sloop-of-war *Albatross*.—The *Albatross* will also sail in a day or two.
Much excitement continues to exist among the Cumberland coal miners, and the sheriff has been dispatched to dislodge some who refused to vacate the townships. Riotous demonstrations had been made but resisted by the officers of the company, and several of the rioters had been arrested from the Froburg region, and it is reported that the miners have appointed a committee to confer with the company's agents for the settlement of all difficulties.

Speculators yesterday set reports afloat to the effect that the Arabian's news was in town indicating an advance in breadstuffs at Liverpool, &c., and some buyers got 'bit' in consequence, especially in corn.

A ridiculous story was last night telegraphed from Quebec to Montreal that information was received of the intended invasion of Canada by the Russians, and that 10,000 militia were to be called out in consequence. It is doubtless a hoax, but nevertheless caused much excitement.

PHILADELPHIA, March 16.

NEW HAMPSHIRE ELECTION.—The State election of New Hampshire took place yesterday, and as far as heard from 101 Democrats and 101 Republicans were elected to the House. The same towns last year elected 115 Democrats and 75 Republicans. The Democratic majority then was 39. The remaining towns come in as last year the Democratic majority in the House will be 45. The only towns to hear from are mostly Democratic and cannot reduce the majority below 25. It is thought that the Democrats have chosen eight out of the twelve Senators. The majority for Baker for Governor, is about 5,000 over all. A majority of Democrats are elected to the Council and the Senate is triumphant. Several old Democratic towns have gone for the Whigs. Gen. Pierce's own ward gave the Whig rep. relative 70 majority. The Whigs have gained 60 representatives so far.

New York, March 14.
The U. S. steamer *Princeton* has received sailing orders and is now lying off the battery with her supplies on board, ready to sail at a moment's warning. Her destination is supposed to be Cadix, to carry out the deliberations of the Black Warrior affair. A dispatch from Washington in the Times states that a powerful influence was yesterday brought to bear upon the President to induce him not to recommend a suspension of the neutrality laws in relation to Spain. A majority in the cabinet was decidedly for it.

Mr. Delano arrived at Washington from Havana with additional dispatches relating to the Black Warrior.

The cabinet is said to stand thus: Marcy, Cushing, Davis, and Campbell for decisive measures against Spain, Guthrie and McClelland doubtful. By the Georgia Law we have late California papers.

The Panama Star of the latest date has the following important intelligence from Western Mexico by the steamer *California*. We learn that the inhabitants of Acapulco and all that portion of Mexico were in a state of excitement in consequence of a revolution which had recently broken out among them.

It appears that the inhabitants of this and some of the bordering States have taken arms, under Gen. Alvarez, and declared themselves free and independent, and are ready to enforce it if necessary. No positive engagements have been entered into by the rebels, but it is said by some that a slight skirmish had taken place on the plaza Chilpancingo, where Santa Anna had 2,000 men under arms.

There was a rumor in San Salvador that 800 North Americans had disembarked at Omas as allies of Honduras. An attempt has been making, but unsuccessful, to restore peace between Honduras and Guatemala.

WASHINGTON, March 14.
A dispatch to the Evening Express says: Dispatches have been received from the Cuban authorities at Havana of the most important character. Reports have been expressed that the Black Warrior had been seized, and it is believed that ample reparation will be offered.

The President it is now believed will take the difficulties without action on the part of Congress. No step-up on the subject has been sent into Congress to-day, and none is expected.

ANOTHER TERRIBLE STEAMBOAT DISASTER.—SINKING OF THE JOHN L. AVERY.—FORTY OR FIFTY LIVES LOST.

By the arrival last night of the steamer *John Avery*, we learn that another awful steamboat disaster occurred on the Mississippi river, involving the loss of some forty to fifty lives.

We are indebted to Mr. Geo. T. Gray, the gentleman clerk of the Robt. J. Ward, for the following particulars of the terrible calamity.

The steamer *John L. Avery*, Capt. Richard Robertson, bound from New Orleans to Cincinnati, struck a snag at Black Point (about forty miles below Natchez) on Thursday, March 3, at 3 o'clock, A. M., and sunk immediately. As the boat sank, the cabin floated off, and it is thought that at least 40 or 50 lives were lost, principally deck passengers, and probably many more, as she was very full both cabin and deck.

The 2nd mate and cook are amongst the missing. The sing struck the bottom of the boat, and came up through amidst the firemen. The Sultan picked up the survivors and brought them to Natchez. It is thought by many that she did not sink so snug, but was swamped in the heavy gale that prevailed at the time. She was loaded very deep.

The Memphis papers received last night, report that 160 lives were lost. The Avery was a new boat and was owned in Cincinnati.

EX-PRESIDENT FILLMORE AT THE FAIR.—Mozart Hall was densely crowded last night. The Fair was rendered doubly attractive by the presence of Ex-President Fillmore. Many were the ladies and gentlemen who pressed forward to greet him with a hearty shake of the hand.

After passing pretty well around the capacious hall, Mayor Sear, who is equal to almost any emergency, managed to get in one corner of the hall, a boy of the most beautiful woman present, and there the Ex-President was regaled with kisses—none of your tinned, coy communion of tulips, but genuine Kentucky smacks!

The junior was inclined to wish himself an Ex-President for half an hour, but there was no money in the fair last night, that he would have been obliged to have kissed half a dozen at once, to get through in that time.—*Louisville Democrat.*

A BARBAROUS OPERATION.—A few weeks since, a youth, 19 years of age, entered a barber's shop, in Madison street, for the purpose of getting his hair, which was of a fiery red color, cut. The barber exerted his skill on the young man's head, and for his service demanded \$3. This amount was more than the youth had with him, and requested that an apprentice of the barber might accompany him to his residence, and there receive the money. The arrangement was pronounced satisfactory, and both started, but before reaching the house of the youth, he gave his companion the slip, and was not again seen until yesterday, when the barber's man seized him, and took him to the shop. A policeman was immediately called to arrest the young man, and he was conveyed to the Tombs, closely followed by the barber and his man. The barber informed the magistrate of the nature of the offense committed, and requested that the young man might be released. The latter, on being asked what he had to say, replied that he had been the victim of an imposition, at the same time he pulled off his cap, and to the astonishment of all present, it was discovered that his head had been dyed red-green, instead of black. The magistrate forthwith refused to receive a complaint against him, and amid shouts of laughter, the two victims left the court.—*N. Y. Courier.*

Fanny Fern says she is ready to jump at the first offer of marriage, and presents her qualifications as follows:—

I have very black eyes and hair—am very patient, I am as sensitive as the 'Mimosa,' afflicted with an angle, and unobtainable as chain lightning. I can make a pudding or write a newspaper squib, and a caper, and crowd me into my own skin, and take him to the shop. A policeman was immediately called to arrest the young man, and he was conveyed to the Tombs, closely followed by the barber and his man. The barber informed the magistrate of the nature of the offense committed, and requested that the young man might be released. The latter, on being asked what he had to say, replied that he had been the victim of an imposition, at the same time he pulled off his cap, and to the astonishment of all present, it was discovered that his head had been dyed red-green, instead of black. The magistrate forthwith refused to receive a complaint against him, and amid shouts of laughter, the two victims left the court.—*N. Y. Courier.*
